

There's no "big secret" to ranking on Google Maps

Google Business listings improve with
constant attention.

What does “constant attention” mean?

	New Photos every 7 days
	Responding to all reviews
	All Google Q&A answered immediately
	Google Posts, every 7 days
	Check 'suggested updates', every 7 days

Google listing optimization takes experience + time.

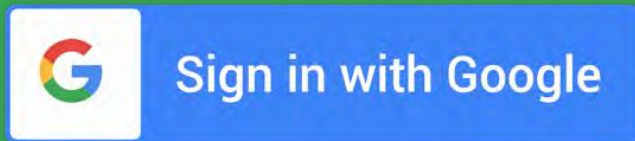

There is, however, an easier & less expensive solution:

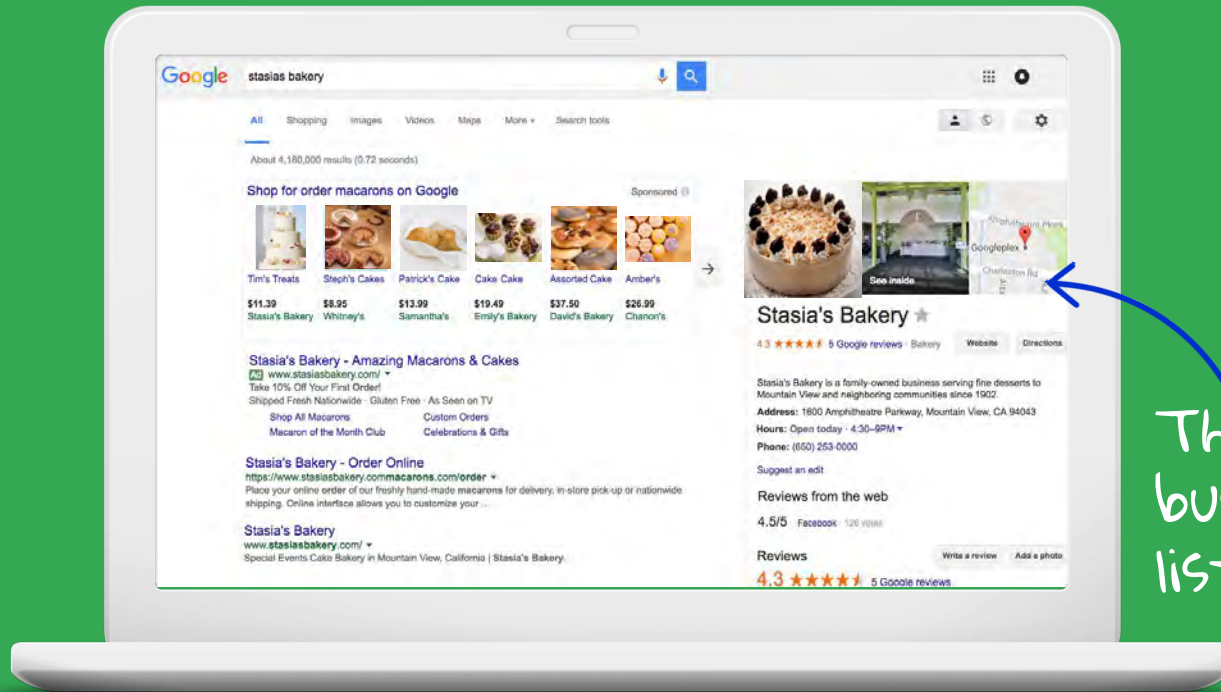

*Data shows it's
about 18 hours
per month for a
single location.*

ASAPmaps intelligently **connects** to Google My Business,
identifies missing data points, and systematically **improves** them.
EVERY. SINGLE. WEEK.

First, we **locate, verify & launch** your business listings.

listing

Next, we set **benchmarks** to prove ROI.

	Website Visits	267	25.9 %	(Baseline: 212)
	Phone Calls	69	3.7 %	(Baseline: 54)
	Driving Directions	582	2.7 %	(Baseline: 561)
	Photo Views	13,026	25.1 %	(Baseline: 10,410)

We set your **baseline** using Google's existing data on your listing

After that, we pack it full of **details**,
